

Educational Value of Chess - John Hopkins School of Education (Wendi Fischer)

"It's not about Kings, Queens, and Rooks, but rather, quadrants and coordinates, thinking strategically and foreseeing consequences. It's about lines and angles, weighing options and making decisions. Chess is part of the curriculum in many schools and is used as a tool to increase higher level thinking skills, advanced math and reading skills, and to build self-confidence."

NCI Empowering Students!

Winter 2019 Chess Program
This program is for beginners, intermediate and advanced chess players. Students will be placed into groups according to their levels. Students will learn opening, middle, and end game strategies. Each session will be divided between instruction and supervised games. Instructors: International Chess Master Voja Milanovic and NCI scholastic chess expert trainers.
