Young Rembrandts

STEAMin' UP SUMMER

Calling all artists, scientists, engineers, and math lovers! Young Rembrandts has a new workshop filled with new ways your child can explore the fascinating world of STEAM! This five-day workshop will dive into a new discipline every day so that all children learn their possibilities. Students will illustrate different types of Sciences, new Technologies, incredible feats of Engineering and striking Math principles - all while creating crazy awesome Art. Your child's brain is growing every day! We can't wait to get started!

PASTEL DRAWING - OCEAN LIFE

Five, fun-filled days await our students as we explore ocean life as they learn to draw and color with pastels. We will create detailed, pastel compositions on each day, focusing on a different ocean-themed subject. We will draw eye-catching sea stars along the shoreline and a pair of vibrant clown fish. We will illustrate a sea turtle with bold patterns, a blue crab and a wondrous scene of jellyfish. Our instruction will bring remarkable results, and you will want to head to the frame shop with your child's finished pastel pieces. These pastel drawings will reward students with a great sense of pride and accomplishment.
