**RE: Re-synchronization of Traffic Light at intersection of Route 6/Starr Ridge Road, Town of Southeast**

Dear Mr. MacMillan,

With the ever increasing traffic in the Town of Southeast, I would like the NYSDOT to consider re-synchronizing the traffic light at the intersection of Route 6/Starr Ridge Road. Much of this increase in traffic is due to the motoring public trying to find alternate routes to bypass the congestion of the I84/I684 corridor. With the recent opening of a new building at the intersection of Route 6/Starr Ridge Road which houses a Dunkin Donuts, it appears that this situation has exasperated and should be addressed.

The traffic light at this intersection has always had a delayed green arrow to allow people heading east towards Connecticut, to make a left at this intersection to head north on a ramp which leads to route 22. However, on the opposite side of the traffic light coming west from Connecticut into Brewster, there is no similar green arrow which allows a left hand turn at the traffic light. My suggestion would be to re-synchronize the traffic light which would allow for a left turn on to Starr Ridge Road, during the same time frame the opposite side of the traffic light allows a left hand turn on to the Route 22 Ramp to head north. I have attached a photo of the area for your review.

Thank you in advance for your attention in this matter and I look forward to hearing from you. If you have any questions, I can be reached at (845) 279-5345.

Sincerely,

Tony Hay  
Southeast Supervisor  
Attach.
